Pegs (Jacksons Pond)

Disabled pegs

When a disabled angler(s) fishes a match and they prefer to use the disabled pegs, they shall be permitted to draw from the disabled pegs first. Any remaining unused disabled pegs will then be returned to the pool from which the rest of the anglers then draw.

All pegs will be eligible for the draw unless there is a clearly justifiable reason that makes a peg unfishable (ie unsafe banking, fallen tree etc.). It will be solely the Match Secretary's decision whether a peg should be removed from the draw.

Any angler found to have left litter on their peg at the end of a match will be excluded from the results.

Drawing of pegs

The drawing of pegs will take place at the advertised time; late arrivals may draw from the remaining pegs at the Match Secretary's discretion. It is permissible for an angler who knows they are going to arrive late, to contact the Match Secretary and request that a peg be drawn for them. In which case the Match Secretary will draw that persons peg FIRST.

Pools

There are no pools run by the club.

Weighing in

The member drawing the lowest peg number will be obliged to carry out or assist the Match Secretary in conducting the weigh in at the end of the match unless otherwise directed by the Match Secretary. Any member who does not comply will not be allowed to weigh in their own catch.

Silvers matches

In "silvers" matches **ANY** carp that weigh over 1lb will be counted as weighing 1lb. This includes crucian, F1, F2, goldfish, koi etc.

Carp Matches

In matches where carp are retained anglers must use a separate net for carp and silver fish.

Match Secretary's discretion

In the unforeseen event of anything not covered by the Match Rules or the Club constitution, the Match Secretary's decision is final.
